Mr. Grossman - Resolution - That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing April 1st, 1984 and ending June 30th, 1984, such payments to be charged to the proper appropriation following the voting of Supply. Carried March 27, 1984.

2. Mr. Wells - Resolution - That the following Standing Committees be established for this Session, with power to examine and inquire into all such matters as may be referred to them by the House, with power to send for persons, papers and things, as provided in section 35 of the Legislative Assembly Act:
 - **Standing Committee on General Government** (12 Members, with 7 from the Government Party, 3 from the Official Opposition and 2 from the Third Party);

 - **Standing Committee on Resources Development** (12 Members, as above);

 - **Standing Committee on Administration of Justice** (12 Members, as above);

 - **Standing Committee on Social Development** (12 Members, as above);

 - **Standing Committee on Regulations and Other Statutory Instruments** (12 Members, as above), appointed for this Session to be the Committee provided for by section 12 of the Regulations Act, and having the terms of reference as set out in that section, namely: to examine the regulations with particular reference to the scope and method of the exercise of delegated legislative power without reference to the merits of the policy or objectives to be effected by the regulations or enabling statutes, but in so doing regard shall be had to the following guidelines: (a) Regulations should not contain provisions initiating new policy, but should be confined to details to give effect to the policy established by the statute. (b) Regulations should be in strict accord with the statute conferring of power, particularly concerning personal liberties. (c) Regulations should be expressed in precise and unambiguous language. (d) Regulations should not have retrospective effect unless clearly authorized by statute. (e) Regulations should not exclude the jurisdiction of the courts. (f) Regulations should not impose a fine, imprisonment or other

penalty. (g) Regulations should not shift the onus of proof of innocence to a person accused of an offence. (h) Regulations should not impose anything in the way of a tax (as distinct from fixing the amount of a licence fee, or the like). (i) General powers should not be used to establish a judicial tribunal or an administrative tribunal. And the Committee shall from time to time report to the House its observations, opinions and recommendations as required by section 12 (3) of the Regulations Act, but before drawing the attention of the House to a regulation or other statutory instrument the Committee shall afford the ministry or agency concerned an opportunity to furnish orally or in writing to the Committee such explanation as the ministry or agency thinks fit. And the Committee shall have power to employ counsel and such other staff as it considers necessary;

- **Standing Committee on Members' Services** (12 Members, as above), to examine the services to Members from time to time, and without interfering with the statutory responsibility of the Board of Internal Economy in such matters, be empowered to recommend to the consideration of the House matters it wishes to draw to the special attention of the Board; and be empowered to act as an Advisory Committee to Mr. Speaker and the Board of Internal Economy on the administration of the House and the provision of services and facilities to Members, and to draw the special attention of the House to such matters as the Committee believes requires it;

And, That, unless otherwise ordered, substitution be permitted on all Standing Committees provided that written notice of substitution is given to the Chairman of the Committee before the Committee meets or in the first thirty minutes after the Committee meeting is called to order.

Carried April 2, 1984.

3. Mr. Wells - Resolution - That this House endorses the following schedule for committee meetings during this Session: the **Standing Committee on Social Development** may meet on the afternoons of Mondays, Tuesdays and Wednesdays; the **Standing Committee on Resources Development** may meet on the evenings of Tuesdays and Thursdays; the **Standing Committee on General Government** may meet Wednesday afternoons; the **Standing Committee on Administration of Justice** may meet Thursday afternoons and Friday mornings. On Wednesday mornings no more than two of the following committees may meet without leave of the House: **General Government, Resources Development, Administration of Justice**. The following committees may meet on Thursday mornings: **Public Accounts, Procedural Affairs, Regulations and Other Statutory Instruments**. The following committee may meet on Thursday afternoons: **Members' Services**.

And, That no Standing or Select Committee may meet while the House is in Session except in accordance with this schedule or as ordered by the House. Carried April 2, 1984.

4. Mr. Davis (seconded by Mr. Peterson and Mr. Rae) - Resolution - That in light of the tragic event which occurred in the Quebec National Assembly on Tuesday, May 8, the Speaker convey to the President of that Assembly the heartfelt concern and sympathy of the Members of this House over the loss of life and injuries sustained by those dedicated men and women who have been servants of that House; and that this House recognize and salute the Sergeant-at-Arms of the Quebec National Assembly for his selfless and courageous action to prevent further loss in the face of grave danger; and that the Members of this House join in extending personal messages of condolence to the President and all Members of the Quebec National Assembly and to the bereaved and the assurances of the fraternal support of this House.

- M. Davis (secondé par M. Peterson et M. Rae) - Résolution - Qu'il soit résolu que, suite à l'événement tragique qui a frappé l'Assemblée nationale du Québec le mardi 8 mai, le président fasse part au président de l'Assemblée nationale de la profonde sympathie qui anime les députés de l'Assemblée législative de l'Ontario face aux décès tragiques et aux blessures subies par des hommes et des femmes au service de l'Assemblée nationale; qu'il soit résolu que nous, de l'Assemblée législative de l'Ontario, rendions hommage au sergent d'armes de l'Assemblée nationale du Québec pour le courage et le dévouement dont il a fait preuve pour épargner d'autres vies; qu'il soit résolu que les députés de l'Assemblée législative de l'Ontario offrent leurs condoléances aux familles des victimes de cet événement et assurent le président et les députés de l'Assemblée nationale du Québec de leur appui fraternel. Carried May 10, 1984.

5. Mr. Grossman - Resolution - That this House approves in general the Budgetary Policy of the Government.

6. Mr. Grossman - Resolution - That the Treasurer of Ontario be authorized to pay the salaries of civil servants and other necessary payments pending the voting of Supply for the period commencing July 1st, 1984, and ending October 31st, 1984, such payments to be charged to the proper appropriation following the voting of Supply. Carried June 18, 1984.

7. Mr. Wells (seconded by Mr. Nixon and Mr. Rae) - Resolution - That the Government of Ontario express to the authorities in the Soviet Union, on behalf of the people of the Province, its deep concern for the health and safety of Yuri Orlov and Anatoly Shcharansky, its complete opposition to the continued imprisonment of Drs. Orlov and Shcharansky, and its support for the International Campaign - Orlov and Shcharansky, which has been joined by Nobel laureates, scholars, scientists, organizations and individuals from around the world in its flight to free these two prisoners of conscience.
Carried June 22, 1984.
8. Mr. Wells - Resolution - That notwithstanding any order of the House, the House sit for the consideration of Government Business, afternoons and evenings Monday to Thursday and Fridays until 1:00 p.m. until further order and that the consideration of Bill 142, An Act respecting the City of Barrie and the Township of Vespra, by the Committee of the Whole House be concluded not later than 5:45 p.m. on the first sessional day following the passage of this motion unless such a day be Friday, in which case the conclusion of the consideration will not be later than 5:45 p.m. on the following Monday, at which time the Chairman will put all questions necessary to dispose of every section of the Bill not yet passed, and the schedule, and to report the Bill, such questions to be decided without amendment or debate; should a division be called for, the bell to be limited to ten minutes;

And, that any debate on the question for the adoption of the Report be held in the evening of the sessional day on which the Bill was reported and be concluded not later than 10:15 p.m. on that day, at which time Mr. Speaker will interrupt the proceedings and put the question for the adoption of the Report without amendment or further debate and if a division is called for, the bell to be limited to ten minutes;

And, further, that the Bill be called for Third Reading debate on the sessional day following the adoption of the report and be completed not later than 5:45 p.m. on that day unless it be a Friday, in which case it will be completed not later than 12:45 p.m., at which time Mr. Speaker will interrupt the proceedings and put the question without further debate and if a division is called for, the bell to be limited to ten minutes;

And, finally, that in the case of any division in any way relating to any proceeding on this Bill, the bell be limited to ten minutes.

Carried on Division June 25, 1984.

9. Mr. Wells - Resolution - That the following committees be authorized to meet during the Summer Adjournment, in accordance with the schedule of meeting dates agreed to by the three Party Whips and Tabled with the Clerk, to consider examine and inquire into the following matters:

11. Mr. Grossman - Resolution - That the Treasurer of Ontario be authorized to pay the salaries of civil servants and other necessary payments pending the voting of Supply for the period commencing November 1st, 1984, and ending December 31st, 1984, such payments to be charged to the proper appropriation following the voting of Supply. Carried October 16, 1984
12. Mr. Wells - Resolution - That the Order of the House of Thursday, June 16, 1983, authorizing and prescribing the Terms of Reference of the Commission to Redistribute the Ontario Electoral Districts be amended by striking out the words "if within a period of fifteen days after the Report is laid before the Assembly" in the tenth paragraph thereof and substituting the following therefor "if within the first eight sitting days of the 1985 Session of the Legislative Assembly" so that the paragraph will read as follows:

That, if within the first eight sitting days of the 1985 Session of the Legislative Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sitting days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and thereafter, the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within thirty days after the day the

Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker. Carried November 30, 1984

13. Mr. Wells - Resolution - That, on this 36th Anniversary of the signing of the International Declaration of Human Rights, to which the Soviet Union is a signatory, this House reaffirms its commitment to human rights in this jurisdiction and across the world and brings to public attention that nine Soviet Jews, Alexander Kholmiansky, Yakov Levin, Zachar Zunshain, Yuli Edelshtein, Yakov Mesh, Moshe Abramov, Mark Niepomniashchy, Yakov Gorodetsky, and Alexander Yakir, stand accused of the "crime" of teaching Hebrew, with this basic right of transmitting one's language and culture denied only to Soviet citizens of Jewish origin; and That this House condemns suppression of Jewish culture and urges the Soviet Union to drop charges and release those unjustly imprisoned and allow them to continue in the pursuit of learning. Carried December 10, 1984

14. Mr. Wells - Resolution - That the following standing committees be continued and authorized to sit during the Recess between the Fourth and Fifth Sessions of this Parliament in accordance with the schedule of meeting dates agreed to by the three party Whips and tabled with the Clerk, with power to send for persons, papers and things, as provided in section 35 of the Legislative Assembly Act, and with power to examine and enquire into the following matters:

Standing Committee on Procedural Affairs to review the operation of certain agencies, boards and commissions of the Government of Ontario and the Standing Orders and procedures of the House. The committee shall have authority to adjourn to Boston, Massachusetts, in February, 1985.

Standing Committee on Public Accounts to consider its Annual Report to the House and to review the Provincial Auditor's Report on Algonquin College and other matters related to its terms of reference. 19. Mr. Wells - Resolution - That, notwithstanding the prorogation of the House, upon the commencement of the Fifth Session of the 32nd Parliament, Bill 141, An Act to amend the Employment Standards Act, be deemed to have been introduced and read the first time, deemed to have been read the second time, and ordered referred to the Committee of the Whole House.
Carried December 14, 1984.

PRIVATE MEMBERS' MOTIONS

1. Mr. Epp - Resolution - That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. Mr. Wrye - Resolution - That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the Mental Health Act where the spouse or immediate family is seeking to have a committee appointed under the Mental Competency Act, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. Mr. Van Horne - Resolution - That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. Mr. Cooke - Resolution - That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.

5. Mr. Cousens - Resolution - That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
Carried April 12, 1984.
6. Mr. Laughren - Resolution - That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
Lost on Division April 18, 1984.
7. Mr. Havrot - Resolution - That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
Carried April 18, 1984.
8. Mr. Cooke - Resolution - That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.
9. Mr. Kolyn - Resolution - That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the

Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result. Carried October 25, 1984.

10. Mr. Johnston (Scarborough West) - Resolution - That in the opinion of this House we should encourage the Parliament of Canada to endorse the provisions of the Peace Petition Caravan Campaign, namely that Canada should become a nuclear weapon free zone; that Cruise missile testing in Canada be ended; that money be redirected from the arms race to meet basic human needs; and that a free vote in the federal House on these issues be held.
11. Mr. Di Santo - Resolution - That in the opinion of this House the government, recognizing that the decision of the Toronto Transit Commission in May 1983 to restrict eligibility for the student fare to full-time students, 19 years of age and under places undue hardship on almost 3,000 adult secondary students living in Metropolitan Toronto, use its powers to convince the Toronto Transit Commissioner to make all duly registered secondary students, irrespective of age, eligible for student fare reductions and that all such students become eligible for a TTC monthly pass at an appropriate and reasonable student rate.
12. Mr. Allen - Resolution - That this House recognizes that some 1.5 million jobless constitute a serious moral as well as an economic crisis and hereby endorses the economic and social reform program proposed by the Canadian Council of Catholic Bishops in the document entitled "Ethical Reflections on the Economic Crisis". Further, this House urges the Government of Ontario and the Government of Canada to proceed immediately with legislative and policy enactments which will implement the five specific short-term strategies outlined in the document, namely: (1) first, unemployment rather than inflation, should be recognized as the number one problem to be tackled in overcoming the present crisis; (2) second, an industrial strategy should be developed to create permanent and meaningful jobs for people in local communities; (3) third, a more balanced and equitable program should be developed for reducing and stemming the rate of inflation, shifting the burden of income restraint to upper income earners and increasing taxation on investment income and corporations; (4) fourth, greater emphasis should be given to the goal of social responsibility in the current recession, ending cut-backs in social services, maintaining adequate health care and social security benefits, and above all,

guaranteeing special assistance for the unemployed, welfare recipients, the working poor and one-industry towns suffering from plant shut-downs; and (5) fifth, labour unions should be asked to play a more decisive and responsible role in developing strategies for economic recovery and employment. This requires, among other things, immediate steps to redress the historic exclusion of labour from an ongoing role in effective industrial decision-making and ownership in the workplace.

Blocked April 26, 1984.

13. Mr. Reid (Rainy River) - Resolution - That in the opinion of this House, the Government should, (1) table in the Assembly every survey of public opinion commissioned by the Government between March 1st, 1982 and today's date; (2) table in the Assembly every survey of public opinion commissioned by the Government after today's date, within one month of the day the survey is presented to the Government, unless the Assembly is not then in session, in which case the survey shall be filed with the Clerk of the Assembly; and (3) with every survey tabled, indicate its full cost and who carried it out.

14. Mr. Rae - Resolution - That in the opinion of this House the Family Law Reform Act should be amended to eliminate the present artificial and inequitable distribution between family and non-family assets and to replace it with a system of deferred community property which would recognize both spouses as equal in the partnership and give adequate recognition to the contribution of homemakers so that an equal sharing of all property and debts acquired during marriage excluding therefrom gifts, inheritances and property acquired by either spouse prior to the marriage.

15. Mr. Stevenson - Resolution - Recognizing that trade plays a vital role in Ontario's economy, and that trade policies will be a key factor in determining our province's future, and given that over 70 per cent of our trade is with the United States, this House urges federal-provincial co-operation and direct provincial participation in the recently initiated Canada-U.S. discussions on sectoral free trade arrangements, in order to examine the potential long-term benefits to Ontario of free trade arrangements in selected industry sectors. Carried May 3, 1984.

16. Mr. Foulds - Resolution - That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts

north of the French River) within two years of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

Carried on Division May 10, 1984.

17. Mr. Cureatz - Resolution - That in the opinion of this House, in order to give local municipalities power to pass by-laws related to employee security in retail businesses, the Government should amend the Municipal Act to allow municipalities to pass by-laws to require retail businesses that are open to the public between 10 o'clock in the afternoon of any day and 5 o'clock in the forenoon of the following day to install such security devices as may be set out in the by-law. Carried May 10, 1984.
18. Mr. Roy - Resolution - That as section 43 of the Constitution Act, 1982, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the Canadian Charter of Rights and Freedoms be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:
- | | |
|------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| s.17,
amended | 1. Section 17 of the <u>Canadian Charter of Rights and Freedoms</u> is amended by adding thereto the following subsection: |
| Proceedings
of Ontario
legislature | (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario. |
| s.19,
amended | 2. Section 19 of the said Charter is amended by adding thereto the following subsection: |
| Proceedings
in Ontario

M. Roy - Résolution - Étant donné que l'article 43 de la Loi constitutionnelle de 1982 prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la Charte canadienne des droits et libertés par voie de proclamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la Charte canadienne des droits et libertés est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature de
l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Communications
entre les
administrés et
les institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

19. Mr. Grande - Resolution - That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years, thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

20. Mr. Wildman - Resolution - That in the opinion of this House the Ministry of Labour has failed to adequately protect the health and safety of workers; and that, in the opinion of this House, the Occupational Health and Safety Act shall be amended to include all workers, to require committees in all workplaces, and to incorporate a worker Bill of Rights which would include: (a) the right to a safe and healthy workplace through the promotion and maintenance of physical, mental and social well-being of workers; (b) the right of all workers to an unconditional right to refuse work in any unsafe situation whether the hazard directly threatens that worker, threatens another worker, or the public. This would include the right to group work refusals; (c) the right for worker or union health and safety representatives to shut down a workplace for reasons of health or safety; (d) the right of workers to full wage and benefit protection in all matters relating to health and safety including work refusals, or shutdowns; (e) the right to full information through material safety data sheets, posting and labelling of all hazards in the workplace. This would include the chemical name and the percentage volume by weight of all ingredients in substances uses, exposure levels, health effects, and the right to full information on any testing undertaken in the workplace; (f) the right for worker health and safety representatives to undertake their own testing or monitoring of the workplace. Monitoring equipment be made available by the Ministry of Labour or management; (g) the right for worker health and safety representatives to investigate all accidents, fatalities or reported hazards in the workplace including full access to documents, reports and the right to interview co-workers and to inspect the work process or location involved; (h) the right to mandatory inquests into all workplace fatalities with the right to standing for worker health and safety representatives and their union, and with the right to full participation without restrictions; (i) the right of worker health and safety representatives to get strict enforcement of the Act by Ministry officials, including the right to demand that the Ministry prosecute any employer violating the Act or its regulations; the right to expedited decisions on prosecutions, demands for stricter penalties and an appeal process to challenge Ministry decisions not to prosecute; (j) the right of all workers to health and safety education in the language spoken in the workplace, the education to be the OFL 30-hour certificate course or a choice of the workers or union with management paying for the cost of the courses and lost wages; (k) the right to medical removal protection including full rate retention of workers wages and benefits if unable to work due to workplace disease, and full and adequate compensation if unable to return to work due to injury or illness; (l) the right of workers to ask the Ontario Labour Relations Board (OLRB) to award damages in cases of intimidation; and (m) the right of workers or their union to an external appeal procedure for complaints under the Occupational Health and Safety Act.

21. Mr. Samis - Resolution - That the Provincial Secretariats for Resources Development, for Social Development and for Justice be abolished and that a new Ministry of Eastern Affairs be created. Such a ministry would have jurisdiction in the counties of Glengarry, Stormont, Dundas, Grenville, Leeds, Frontenac, Addington, Prince Edward, Lennox, Hastings, Peterborough, Northumberland, Lanark, Carleton, Victoria, Haliburton, Prescott-Russell and Renfrew. The function of the ministry would be to co-ordinate activities and initiate policies and programs for the government in Eastern Ontario, including: 1) Preparing and recommending government plans, policies and priorities for Eastern Ontario; 2) Establishing and administering ministry programs and co-ordinating government programs and services relating to Eastern Ontario; 3) Advising and participating in the planning and financing of government programs, services and activities in Eastern Ontario, provided by other ministries; 4) Improving the accessibility of the programs, services and activities of the government of Ontario to the residents of Eastern Ontario; 5) Making recommendations regarding priorities for research of social and economic conditions of all areas of Eastern Ontario; 6) Administering such other programs and performing such other duties as assigned to it by any Act or by the Lieutenant Governor in Council. In short, the ministry would act as an advocate for people of the East, as a co-ordinator of programs and services and an initiator and implementor of programs in its own right.
22. Mr. Kennedy - Resolution - That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
23. Mr. Kennedy - Resolution - That the Government of Ontario should seek to amend the Compensation for Victims of Crime Act to ensure that the full cost of the care required by disabled victims of crime insofar as it is not covered by personal insurance and other government programs is met from public funds.
24. Mr. Sheppard - Resolution - That in the opinion of this House, more equitable settlements are desirable when awards made under the Line Fences Act are appealed, and in order to affect such, this House supports amendments to the Act which would replace the current appeal system with an independent appeals tribunal. Carried May 31, 1984.
25. Mr. Edighoffer - Resolution - That this House urges all municipalities which have not already done so to pass by-laws restricting the open display in retail stores of materials such as books, magazines and video tapes, which are appealing to or designed to appeal to erotic or sexual appetites, or which depict images of exaggerated violence, and that such open display be restricted through the use of opaque barriers of a size and nature which would ensure that the covers of such books, magazines or video tapes, save only the names thereof, may not be seen by the public. Carried May 31, 1984.

26. Mr. Eves - Resolution - That given the Canadian public is growing increasingly concerned about the parole system in Canada, and given the need to maintain public confidence in our system of justice, this House urges the Government of Canada to review and reform the Parole Act, and to consider increasing the minimum period of time required to be served by an inmate to be eligible for parole or for day parole to one-half of the sentence.
Carried on Division June 7, 1984.
27. Mr. Miller (Haldimand-Norfolk) - Resolution - That in the opinion of this House, the Government recognize that economic pressures continue to force many farmers in this Province out of the agriculture industry and that in order to give our farmers a sense of security in the future of this vital industry, the Government take immediate steps to set up short- and long-term financial programs at eight per cent interest rates so that the agriculture industry will remain viable, grow, prosper and compete equitably with agricultural financial assistance programs in other provinces.

28. Mr. Kerrio - Resolution - That this House urges the Government of Canada to amend the Narcotic Control Act to allow the therapeutic use of heroin by physicians to alleviate pain for the terminally ill.
Carried unanimously October 18, 1984.
29. Mr. Cooke - Resolution - That in the opinion of this House the physical, spiritual and psychological well being of residents in Ontario's long-term care facilities can only be guaranteed by the adoption of a Residents' Bill of Rights which will uphold the dignity of the individual, and that this Bill should be developed from the model drafted by the Ontario Association of Resident's Councils which recognizes the following rights of residents in care facilities: (1) To be sheltered, cared for and spoken to in a manner befitting one's status as an adult, and without the threat of any kind of abuse by staff or other persons; (2) To be involved, wherever possible in any decisions affecting one's life; (3) To manage one's own financial affairs. If unable to do so, a resident may authorize the health care facility or a third party to administer one's money or personal property. To receive an accounting of any and all financial transactions one has authorized the health care facility or third party to make on one's behalf; (4) To receive a monthly comfort allowance, as determined by the Province of Ontario; (5) To exercise the rights of a citizen; to be kept informed of and involved in issues that affect him or her; (6) To have access to a mechanism to express personal feelings, criticisms and grievances that will include access to the administrator if desired, and that will exclude any fear of reprisal, discrimination or deprivation; (7) To refuse treatment and medication, and to be informed of the medical consequences of his or her refusal, and to enjoy this right to the extent that it will not interfere with the lives and safety of other

residents (e.g. in the case of communicable diseases) or violate any specific law; (8) To receive courteous, fair and respectful care and assistance and appropriate medical nursing and psychological diagnostic assessment and treatment; (9) To have one's condition, care and treatment explained in terms easily comprehensible to oneself, next of kin, or a third interested party; (10) To receive rehabilitation, reactivation and assistance towards independence and self care at the maximum level possible in comfort and dignity. This includes the provision of prosthetic appliances or devices, innovative and imaginative aids, communication systems, utensils and adaptive clothing to assist in the normal acts of daily living; (11) To receive assistance necessary to be able to participate in and have access to all activities that the health care facility has to offer; (12) To form friendships, and enjoy in private, normal and loving relationships with members of the opposite sex without hindrance or embarrassment; (13) To know that one's personal, financial, medical and other records are kept in confidence and to know that they are available only to those for whom the information is essential; (14) To have space and opportunities to work on one's hobbies; (15) To write, or to have written, and to receive any mail or otherwise to communicate without any interception or interference by the staff or management of the health care facility; (16) To enjoy privacy in counselling, treatment or care for personal needs and to be provided with space for private communications with one's family, friends, lawyer, clergy, government representative, or any other person. Persons not directly concerned in one's case and treatment must have one's permission to be present; (17) To a written statement of rules and regulations governing the health care facility and of the services provided by the health care facility and any additional services which will be provided if needed and of any costs associated with them, and to be informed of all amendments and changes in the above, and to have access to all provincial legislation, regulations and policy memoranda and to expect that these will be complied with; (18) To have adequate and nutritious meals and snacks appropriate to the special needs of residents; (19) To be free from chemical or physical restraints, except when ordered with proper consent procedures by a physician for a specified period of time to prevent injury to oneself or others; (20) To have all experiments, studies, surveys and polls adequately explained and to have the freedom to refuse participation; (21) To be able to bring to the health care facility and to keep, possessions, favourite pieces of furniture, family pictures and treasured mementoes, as space allows, and to be assured of security for personal possessions held by oneself or stored at the health care facility. It is understood that one's personal possessions are suitably marked and one uses reasonable precautions to protect one's belongings; (22) To be provided with opportunities, and to be encouraged, to develop as a mature adult in keeping with one's abilities and potentialities; (23) To be provided with palliative care, death with dignity, and, where families are unable to provide, a

sympathetic funeral and burial service in accordance with one's beliefs, last wishes and financial abilities; (24) To expect all staff, upon being hired, and thereafter through in-service training, will have up-to-date knowledge about the process of aging and diseases often associated with aging as these affect their careers and the residents' life in the health care facility; and (25) To expect all staff to be informed of, and assume that all staff will respect, the above rights.

30. Mr. Shymko - Resolution - That recognizing the universality and indivisibility of freedom and the adherence to the principles of political liberties and national sovereignty as fundamental elements of our free and democratic society and recognizing in this Bicentennial Year the significant contribution to Ontario and Canada made by peoples who have settled on our shores as political refugees escaping persecution and at times genocide in their former homelands where national independence and political liberties had been lost as a result of foreign occupation and domination and acknowledging our Government's traditional recognition of the independence proclamations enshrined in the course of history by the sovereign will of the nations with whom these Canadians are related by ancestry, language and culture, this House invites all Ontarians to commemorate these special independence anniversaries on the respective dates that they are celebrated by the various communities and suggests that the Premier sign, upon request and at his discretion, appropriate proclamations on these occasions and allow for the raising of the respective national flags in front of the Parliament Building to be flown during the Commemorative Day and asks this Government to urge the Government of Canada to institute a similar practice in Ottawa. Carried November 15, 1984.
31. Mr. Gordon - Resolution - Recognizing that the rapid societal changes occurring in Canada represent similar challenges to education policy-makers in every province across Canada, it is the opinion of this House that the Government, through the Ministries of Education and of Colleges and Universities, work to encourage strengthening inter-provincial educational organizations, such as the Council of Ministers of Education, in order to effect better co-ordination of education policy planning between Ontario and other provincial education systems and agencies nation-wide. Carried October 18, 1984.
32. Mr. Di Santo - Resolution - That Ontario should legislate a two-part program of income support of older workers experiencing termination of employment through permanent layoff or plant closure. Part I of the program, dealing with company pension benefits, would provide that workers aged 55, with five or more years of seniority, would immediately begin to receive full pension benefits equivalent to their entitlement at age 65. Employers would maintain all employee benefits until normal retirement age. Under Part II of the program, older workers would receive a bridging supplement equivalent to the sum of CPP retirement

benefits and Old Age Security benefits until they either found new employment or reached retirement age. This part of the program would be financed by a payroll tax on employers.

33. Mr. Di Santo - Resolution - That pending expansion and enrichment of the Canada Pension Plan to provide adequate early retirement pensions to older workers, Ontario should establish an Early Retirement Fund to enable voluntary early retirement for two categories of older worker, those who work in heavy labour occupations and those whose employer agree to hire younger workers to replace workers retiring before age 65. This fund would pay benefits equal to 50% of the average industrial wage and would be funded by a payroll tax. This tax would be paid by employers and would have no ceiling on earnings subject to tax, but would exempt firms established less than five years, those with a high proportion of younger employees and those with company pension provisions enabling early retirement with full benefits.

34. Mr. Ruston - Resolution - That the Member for Windsor-Riverside (Mr. Cooke) having failed to withdraw allegations that certain Members of the House, namely Messrs. Cunningham, Riddell and Ruston, were absent for the vote on Bill 108 on November 17th, 1983, relating to affirmative action and equal pay for work of equal value, this House therefore censures the Member for Windsor-Riverside.
35. Mr. Peterson - Resolution - That this Assembly authorizes and directs the Speaker to issue, pursuant to section 35 of the Legislative Assembly Act, his Warrant requiring the production of the following information, namely, for each ministry and provincial secretariat: (1)(i) the amount spent by each ministry and secretariat for (a) management consultant services; (b) technical consulting services; (c) communications services; (d) legal services; (e) research and development services; and (f) creative communications services, as defined by the Management Board of Cabinet Manual of Administration, for the fiscal years 1978-79 to 1982-83 inclusive; (ii) the number of contracts involved in each of the categories and for each fiscal year above; (iii) the individual, individuals, companies or firms awarded the contracts, and whether or not the contracts were tendered; 2(i) the total advertising budget for each ministry and secretariat and its agencies, boards and commissions for the fiscal year 1982-83; (ii) the comparable advertising budget for the fiscal year 1981-82; (iii) the advertising agencies employed; (iv) the tenders let for these accounts; and (v) a copy of the material used in all promotions such as brochure, radio and television scripts, direct mailings, and any other promotional material; (3) for each ministry and secretariat: (i) the number of employees directly responsible for communications with the public and press and the total salaries in the communications/information branch of the ministry or secretariat and any of its agencies, boards and commissions for the fiscal year 1982-83; (ii) the number of clerical and support staff and contract staff who assist communications officers and their total salaries for the fiscal year 1982-83; (iii) the number of employees directly responsible for communications with the public and press and total salaries in the communications/information

branch of the ministry or secretariat and any of its agencies, boards and commissions for the fiscal year ending 1977-78, if applicable; (iv) the number of clerical and support staff and contract staff who assist communications officers and their total salaries for the fiscal year 1977-78; (v) whether the Minister or Provincial Secretary has a personal media adviser or advisers and, if so, what salary or salaries the adviser(s) received for the fiscal year 1982-83; (4) for each ministry and secretariat, the public opinion polls commissioned by the Government during the fiscal years 1981-82 and 1982-83; (5) for each ministry and secretariat: (i) the number and destination of all trips taken outside of Canada by the Minister or the Provincial Secretary, the Deputy and the Assistant Deputy or Deputies, at public expense for each of the fiscal years 1981-82 and 1982-83; (ii) the number of staff and any non-ministry personnel who accompanied the Minister or the Provincial Secretary, the Deputy and the Assistant Deputy or Deputies on any of these trips; (iii) the purpose and cost of each such trip, and how many direct jobs have been created in Ontario to date as a result of each such trip; (6)(i) the number of people who are employed by the ministry or provincial secretariat, by contract or otherwise, who are not classified as Civil Servants; and (ii) the total cost incurred for these services for the fiscal years 1981-82 and 1982-83.

36. Mr. Philip - Resolution - That in the opinion of this House:

- A. The following provisions should be added to the standard OHC rental lease:

Schedule "B"

In addition to the above lease provisions every tenant has the following rights:

- Each tenant shall have the right to one transfer as of right.*
- Tenants who are willing to pay the expenses connected with a transfer shall have the right to an unlimited number of transfers.
- In addition to the current grounds for transfer tenants shall have the right to a transfer on the grounds of emotional health and serious domestic violence.
- Where a tenant is required to transfer from a rent supplement unit because the private landlord is not renewing his agreement with OHC the Local Housing Authority shall cover the tenants moving costs.
- OHC shall allow tenants to arrange, with the consent of the Local Housing Authority, which should not be unreasonably withheld, a mutual exchange of units, as tenants of public housing in England are allowed to arrange.

- Tenants shall be allowed to appeal an original transfer or eviction decision to an independent Tenant Appeal Board, which shall be established by each Local Housing Authority.
 - Local Housing Authorities shall provide written reasons for any decision involving eviction or transfer.
 - Tenants or an authorized agent shall be guaranteed a right of access to personal files and a right to file a rebuttal to any information therein.
 - OHC shall instruct all Local Housing Authorities to limit the content of personal files to information related to the assessment of rent and grounds for eviction as these are set out in The Landlord and Tenant Act or in any legislation succeeding it.
- B. In addition the following provisions shall be added to the OHC Field Manual to provide for tenant participation in Policy-making:
- Each OHC project shall hold an annual meeting of tenants and project management, at which time budget priorities of the project will be discussed.
 - One of the representatives of the province on each Local Housing Authority Board shall be an elected tenant representative.
 - When requested, the Local Housing Authority shall call an annual meeting of all tenants in the Authority for the purpose of electing an executive for the tenant association and representatives to the Authority Board, and for the purpose of discussing the business of the Authority.
 - At the provincial level, a committee consisting of the OHC Board of Directors, the Minister, and tenant representatives shall meet at least once per year to discuss issues of mutual concern.
 - Major changes in OHC policy at the provincial level and the Local Authority level may be made only after consultation with tenant associations, where these exist.
 - The program for the funding of local tenant associations shall be revised so that the dollar amounts allowed in all three phases of the program—*viz.*, start-up funding, organizational funding, and on-going funding, be doubled, and that, as regards on-going funding, if federal participation is not forthcoming, the province proceed with this funding on its own.
 - The program for the funding of local tenants associations shall be extended indefinitely.

- Tenant associations shall be required to do a yearly audit of their books and that access to these books shall be allowed to any tenant upon the giving of 24 hours' notice.
 - The OHC Field manual and the OHC Resident's Guides shall state that, under The Landlord and Tenant Act and The Residential Tenancies Act, tenants have the right to organize and that OHC will not penalize them in any way for participating in an association of tenants.
- C. Noting the continuous degeneration and lack of repairs to O.H.C. projects which can be attributed directly to the Ministry of Housing's reduction of maintenance budget, this House requests the Minister of Housing in conjunction with Municipal building inspectors to conduct a study of each project to ascertain what repairs are necessary to bring each O.H.C. building to acceptable standards, and that the Ministry of Housing provided to the Local Housing Authorities those funds necessary to bring each building to an acceptable standard.
37. Mr. Renwick - Resolution - That the Select Committee on the Ombudsman shall, when it considers it necessary, consider, review, report and recommend to the Legislature on ways in which the Assembly can act to oppose and condemn acts of political killings, imprisonment, terror and torture and any other acts which may be included in any covenant or document to which Canada is or may become a signatory; and, in particular, the Committee shall have the power to consult with, and if deemed appropriate, establish formal relationships with, and provide actual support to government and non-governmental organizations whose aims and objectives are dedicated to the elimination of the kinds of acts mentioned above. The Committee shall further have the power to receive, consider and review specific examples of the kinds of actions herein mentioned and, if deemed advisable, to report thereon to the Legislature with any recommendations for actions which the Legislature might take; and pursuant to the above, the Committee shall have the power to sit concurrently with the House at such times as it considers necessary and appropriate. Blocked October 25, 1984.
38. Mr. Charlton - Resolution - That, given the difficulties workers and community residents have in getting information on hazardous substances used in their workplace or their community, in the opinion of this House the Government should proceed to develop legislation which would give workers and community residents the right to know what hazardous chemicals are being manufactured, stored, used or disposed of in their neighbourhoods and workplaces. Such legislation should include:
- industries, commercial enterprises and institutions would be required to file annual "hazardous substances disclosure forms" with the Ministry of Labour;
 - these forms would be checklists of approximately 450 chemicals (based on the United States Occupational Safety and Health

Administration's comprehensive Subpart Z list of regulated hazardous substances);

- companies would check the chemicals being used in the workplace and indicate the quantities that are used each year;
- provisions would be made for the addition of other chemical hazards as they are identified as problems by government agencies;
- for each substance on the list of hazards, industries would have to complete a Material Safety Data Sheet, containing information on the nature of the substances, its health hazards (including acute and chronic effects, what precautionary or protective measures are necessary and what actions should be taken in case of accidents or spills. These would also be filed with the Ministry of Labour;
- any chemical which is known to cause cancer, birth defects or genetic damage must be identified as such on the Material Safety Data sheets;
- any company that begins to use a new substance during the twelve months between filing "hazardous substance disclosure forms" would be obliged to provide the Ministry of Labour with a completed Material Safety Data Sheet within 15 days;
- inspectors from the Ministry of Labour or staff from the fire, public health, buildings and inspection departments of the community would be allowed to inspect premises not less than once every three years to ensure that companies are actually using the same chemicals that are being reported, and are reporting all hazardous chemicals in use;
- any companies not living up to the legal requirements would be liable to a stiff fine;
- most importantly any person would have access to the information on the hazardous substances disclosure form and on the Material Safety Data Sheets filed with the Ministry of Labour at any reasonable time;
- any worker requesting this information on chemicals used in the workplace would be guaranteed anonymity so that the company could not take reprisals against the workers;
- all chemicals in the workplace must be properly labelled, whether they are in containers or in piping systems, so that chemical composition, generic names, handling precautions and associated hazards are readily displayed;
- companies cannot refuse to disclose information on chemical hazards on the basis of protecting trade secrets. If the company believes they have reason to protect information, they must submit

their case to an arbitration board composed of industry, labour, government and community representatives;

- there must be mandatory education programs in all workplaces to educate employees and new employees in the handling and use of toxic chemicals;
- small quantities of chemicals may be exempted from this regulation if they are used in quantities of less than 20 kilograms per year and if they do not cause cancer, birth defects or genetic damage;
- priority must be placed on the evaluation of workplace and consumer hazards and their health implications by setting up an effective government research agency to evaluate not only new chemicals but also chemicals in use that have not been adequately tested.

39. Mr. Breagh - Resolution - That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner; (1) individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute; (2) under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors and provincial election campaigns; and (3) a registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

40. Mr. Bradley - Resolution - That in the opinion of this House, electronic video Hansard should be installed in the Chamber to provide coverage of all proceedings in the House in addition to that provided at present by the written and electronic media. Lost on Division November 15, 1984.

41. Mr. Lupusella - Resolution - That, in view of the faltering economy recovery now occurring in Ontario and, in particular, the lack of new, real long-term opportunities for young workers and older workers, this House supports an employment security initiative which:

- facilitates the replacement of imports with domestically-produced goods and services. It should target those goods and services - everything from thumb tacks to computer-controlled machinery - and find ways of producing them locally;

- introduces programmes such as early retirement with full pensions, shorter working time and paid educational leave, to allow workers to share in the benefits of new technology and provide younger workers with a way into the work force;
- rethinks the role of public sector job creation. At present there is too little work in the private sector and too much work to do in the public sector, especially in important but neglected areas such as programmes to keep seniors independent, child care, recreation and culture, environmental clean-up and housing;
- relies less on the Financial Post 500 companies and more on new forms of production, such as community enterprises and co-operatives. Support should be increased for existing and new small businesses;
- guarantees every young person, under a Youth Employment and Training Act, the opportunity to participate in literacy, educational and vocational skills training and bring the scattered fragments of the skills training system under a single legislative umbrella;
- reforms the provision of post-secondary school education, apprenticeship and other vocational training to eliminate the redundancy, wasteful expenditure, bureaucratic complexity and inflexibility which characterize many current programmes; and
- requires the payment of severance pay where the employment of an employee with one or more years' service is terminated and the termination is caused by the permanent discontinuance or reduction of all or part of the business of the employer at an establishment.
Blocked December 13, 1984.

42. Mr. MacQuarrie - Resolution - That the House, recognizing the need to integrate and co-ordinate policies and programmes designed to encourage scientific research and technological development as well as to expedite technology transfer and diffusion for the betterment of Ontario's economy and the benefit of the Province's industries and entrepreneurs, recommends that the Government of Ontario establish a Special Expert Advisory Committee on Science and Technology Policy, that this Committee be composed of representatives of the Ministry of Industry and Trade, the Ministry of Education, the Ministry of Colleges and Universities, the Ministry of Agriculture and Food, the Ministry of Labour, the Ministry of Health, the Ministry of Energy, the Ministry of

Environment, the Ministry of Natural Resources, and of representatives of the high technology sector in Ontario, the university-based research community, private sector research establishments and industrial research scientists; and that this Committee be directed to inquire into and to report to and advise the Executive Council on the development of a comprehensive integrated science and technology policy for the Province of Ontario including, but not limited to, such matters as the need for a provincial Ministry of Science and Technology; the development of formal ties between research and technology centres supported by the Government of Ontario and those supported by the Governments of other provinces and the Government of Canada; the prospects for joint ventures among these institutions; methods of developing closer ties between the university research community, the Government, and the private sector; and the development of a catalogue of research activities in Ontario as well as an inventory of the science and technology research and development resources of the Province. To be debated Thursday, November 15th, 1984.

43. Mr. Rae - Motion under Standing Order 63(a) - That the Government lacks the confidence of this House because of its hasty, ill-considered and short-sighted reaction to the evaluation of this Province's credit rating by Standing and Poor's of New York, in particular:

- the decision of the Government to place a greater weight on the views and priorities of a New York bond rating agency than on the needs and priorities of this Province
- the Government's decision to cut back further on education, health and social services spending which is critical to the future of our Province, rather than to bring the spending and borrowing plans of Ontario Hydro under control
- the confusing explanations given by the Treasurer of Standard and Poor's rating review process, as reflected in the following statements of the Treasurer and Standard and Poor's:

Standard and Poor's:

"The fiscal 1985 budget projects a third year of operating deficits and a budgetary deficit exceeding 12% of revenues. However, stronger than expected economic growth appears likely to result in a lower budget deficit this year, and further improvements in fiscal 1986 are anticipated. Improved budgetary results in fiscal 1985 and 1986 are expected to reduce the debt burden." (Standard and Poor's, International Credit Week, Third Quarter, 1984);

The Treasurer:

"The rating agencies are retrospective. They simply look at what has occurred. They do not look into the future and try and figure out what one is likely to do next year, or get any assurance with regard to what one is likely to do because they do not see that as their job vis-a-vis the province, the people they rate or the people who buy bonds based on that. All they are asked to do by the people who buy bonds is to look at the performance to date and assess that against other performance. Having done that, as I indicated last week the entire discussion is retrospective".
(Hansard, Monday October 29th, 1984).

44. Mr. Peterson - Resolution - That this House directs the Standing Committee on Procedural Affairs to undertake immediately a review of the circumstances relating to the review in 1984 of the Province of Ontario's credit rating by Standard and Poor's Corporation, and that the Committee ascertain the chronology of events relating to all communications and meetings between representatives of the Government of Ontario and representatives of Standard and Poor's during 1984, relating to the determination of the Province's credit rating, and the nature and import of such communications and meetings, and further, that the Committee ascertain the chronology of decisions, informal, interim and/or final, relating to the determination of the Province's credit rating by Standard and Poor's.
45. Mr. Rae - Resolution - That the Election Expenses Reform Act be amended to require disclosure of all contributions to campaigns for the leadership of any party registered in Ontario including the names of contributors and the amounts contributed in money or in goods and services.
46. Mr. McLean - Resolution - That this House urges the Board of Industrial Leadership and Development, in co-operation with the Ministry of Industry and Trade, to examine the creation of special initiatives to encourage the growth of manufacturing and industrial investment in municipalities with a population of less than 50,000 in order to diversify local economies.
47. Mr. Philip - Resolution - That the Government of Ontario express to the authorities in Chile, on behalf of the Legislative Assembly, its grave concern over the recent arrests of twenty trade union leaders, including

Ariel Urrutia, Secretary of the Miners' Federation, and its dismay at the tremendous suffering imposed on the relatives of those arrested, some of whom are citizens of Canada resident in Ontario; and, that the Government urge the Government of Chile to immediately guarantee the safety of those persons arrested, disclose their whereabouts and release them forthwith.

48. Mr. O'Neil - Resolution - That in the opinion of this House, recognizing the hardship which will be created in the City of Barrie due to the planned closure of the housewares manufacturing plant of Black and Decker Canada, the approximately 600 jobs which will be lost in the area, and the possible export of jobs from the province which could result; and further recognizing the serious discrepancies in information concerning the financial justification for closing the plant, including contradictory information supplied to public officials; the Government of Ontario should acknowledge this closing to be unique and unprecedented in Ontario, and therefore urges Black and Decker Canada and its parent company, Black and Decker Manufacturing Corporation of Maryland, U.S.A. to reverse their decision, and further the Government of Ontario should take all possible and necessary actions to see that all of the threatened jobs resulting from the closure are preserved.
49. Mr. McGuigan - Resolution - That in the opinion of this House the Standing Committee on Social Development should review the current state of governmental and private efforts directed towards the problem of missing children and, in particular, to study the following matters: (1) the circumstances and frequency of child abductions; (2) the adequacy of government and community services in aiding the victims and their families; (3) the various methods available to government and to the community for publicizing cases of missing children; (4) preventive educational programs; (5) the need for revised legislation and for changes in police and court procedures in order to facilitate the location and retrieval of missing children; (6) the desirability of establishing a national co-ordination centre for missing children to act as a link between the various local and provincial organizations; and (7) any other matters that the Committee considers relevant.
50. Mr. Villeneuve - Resolution - That, in light of the initiatives proposed by the Province of Ontario at the agricultural ministers' conferences in 1982, 1983 and 1984, and at the Federal-Provincial Agriculture Ministers' Conference on Agricultural Credit, this House supports the initiatives proposed by the Minister of Agriculture and Food and urges the timely implementation of new innovative farm financing methods at the provincial and national levels and calls on other provinces and the federal government to join in the accomplishment of this goal.

51. Mr. Swart - Resolution - That, in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to: (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions. Not less than 50% of the members of the agency would be farmers. It would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court; and (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge. On application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
52. Mr. Sweeney - Resolution - That, in the opinion of this House, there should be a moratorium on commercialization of human services in Ontario until an appropriate review has been undertaken. This moratorium should entail: (a) no new licensing or funding of commercial operations; (b) no further approval of experiments in hospital management by for-profit firms; (c) no decisions to allow the commercial sector to enter new service fields; and (d) no legislative or policy shifts which may result in the expansion of the commercial sector; The Standing Committee on Social Development of the Ontario Legislature should immediately undertake a policy review of commercialization in Ontario which would include answers to the following questions: (a) how should commercial service provision be defined; (b) what is the extent of publicly-subsidized commercial service provision in Ontario; (c) what should be the criteria for determining if and when commercial service provision is desirable and appropriate in particular program fields; (d) what role, if any, should the commercial sector play in Ontario's human services; (e) are there any human services which should not be provided by commercial organizations; (f) should there be provincially-enforceable restrictions on commercial service provision on the basis of factors such as chain ownership, absentee ownership, percentage control of the market, corporate concentration, profit levels, geographic concentration, and the vulnerability of service users; and (g) if there is to be commercial provision of certain services, what mechanisms/protections are required to ensure equal access to services, accountability to the government, the public and service users, high quality of service, and full disclosure of information, including profit levels and ownership; The outcome of the review should be a statement of the Provincial Government's policy on and future plans for commercial service provision; The policy review should be an open and public process which would allow sufficient time for public hearings and

presentations; and, As an interim measure while the policy review is being conducted, the Provincial Government should take immediate steps to improve accountability, access to services and to information, and monitoring of quality of care in all services currently provided by commercial operators. These steps would include the introduction and enforcement of clear and measurable standards of quality of service, full public access to all inspection reports and complaints investigations, full public access to organizations' financial reports and ownership information, access by service users to an independent advocate or grievance procedure, provincial regulation and inspection of rest homes/retirement homes and boarding homes, and the introduction of a mechanism to ensure equal access to nursing homes, regardless of financial circumstances and level of care needed.

53. Mr. McKessock - Resolution - That this House urges the Government to impose an immediate moratorium on the capital expenditures of the Ministry of Correctional Services for the construction of, or addition of, detention or prison cells and directs the Ministry to allocate more of its budget to alternatives to incarceration such as community resource centres, bail programs and fine option programs.
54. Mr. Conway - Motion under Standing Order 63(a) - That the Government lacks the confidence of this House because of its record in relation to all matters affecting education in this Province, where through the Ministries of Education and of Colleges and Universities, all educational institutions have been systematically undermined, and sabotaged, have suffered relentless cutbacks in financial resources, have become victims of divisiveness engendered among educational constituencies, have been compelled to implement programmes by confrontational and intransigent policies and have been subjected to an ironhand of increasing centralization and loss of autonomy, in particular:
- the decision of the Government to withdraw from its commitment to share the costs of public education with local municipalities in a ratio of 60 to 40, to the extent the Government now contributes less than 49 per cent of such costs;
 - the unarticulated policy of this Government that, as a consequence of its perception that the provincial university system was overbuilt during the decade 1960-70, it has so diminished its support to universities that the viability and quality of the system is in peril;
 - the position of the Government in the face of the recent strike by community college teachers, whereby it denied legitimacy to the central concern, namely the quality of education;

- the failure of the Government to provide the necessary resources to programmes of special education throughout the Province, whereby the legitimate needs and expectations of thousands of children with exceptional educational needs will remain unmet;
- the destructive predilection of the Government to appoint commissions and committees to inquire into the state of our universities, whose numerous recommendations have all been substantially ignored;
- the failure of the Government to respond to the growth and popularity of the community college system, as it refuses to plan for, or fund any expansion of the system and refuses to disclose reports which evidence the need for expansion of the college system;
- the intransigence of the Government in requiring implementation of the new OSIS high school curriculum without providing prerequisite course curricula, in-service training and financial support and without regard for the many caveats expressed by members of the constituency affected;
- the failure of the Government to make timely, reasonable and necessary provision for French language governance among school boards where the francophone population is entitled to such representation;
- the dismal record of the Government to make even modest provision to the universities of the Province for maintenance and repair of their buildings and capital plant;
- the decision by the Government to abruptly reverse its position on the extension of funding to the separate school system, without debate or consultation and with the consequence of confusion and hostility among all members of the post-secondary school system;
- the announcement by this Government in the Speech from the Throne in March of 1984 that there would be a return to province-wide assessment in the school, which announcement was immediately and substantially contradicted by the Minister responsible;
- the pursuit by the Government of a plan to restructure the distribution of local commercial and industrial property and business tax assessment, through the means of the "Martin Proposal", without full disclosure of alternative proposals, or any commitment to raise per pupil expenditure ceilings and without meaningful consultation;

- the policy of the Government to permit admission to up to 50 per cent of community college programmes by means of a random selection, "lottery" process, without regard to student merit or performance;
- the proposal by the Government to impose a structure, to be known as a College of Teachers, on over 100,000 teachers in the Province, without significant prior consultation, and in the face of opposition from the recognized teacher federations;
- the refusal by the Government to provide support for co-operative education high school programmes, although such programmes have demonstrated extraordinary success and require only very modest financial support;
- the policy of the Government to refuse to provide capital funds to school boards for the building of school facilities in those areas of the Province where overcrowding and the use of portables are at a crisis stage;
- the policy of the Government whereby hundreds of non-credit continuing education programmes were eliminated or curtailed by local schools because funds previously provided were cut off;
- the practice of the Government to make appointments to governing bodies of community colleges on the basis of the appointees' association with the Government party;
- the policy of the Government to sharply increase the tuition fees paid by foreign and visa students, with a consequent and serious decline in foreign student enrolment, imperilling Ontario's role in the world academic community;
- the failure of the Government to encourage and make necessary provision for research and development activity at provincial universities, insofar as research grants do not cover overhead expenses, and often strain existing university resources and discourage faculty research efforts; and
- the policy of the Government which curtailed or eliminated successful adult upgrading programmes, notably those offered by the Prescott-Russell Board and the Niagara Region Board, by virtue of Memo B:9 of 1983, which operated retroactively on those Boards.

55. Mr. McKessock - Resolution - That, in the opinion of this House, the Government should take immediate steps to introduce legislation establishing a debt assistance agency to act as an ombudsman between the farmer and creditors, to review a farmer's financial situation and to make recommendations for solutions, and to assist viable farming operations through the provision of an interest subsidy down to eight per cent on the first \$200,000 of a farmer's existing debt.

56. Mr. Di Santo - Resolution - That, in the opinion of the House, the Government of Ontario should require Ontario Hydro to purchase electricity from small power producers at prices which would reflect Ontario Hydro's avoided cost, that is, the cost of new generation facilities.
