PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden* - Resolution - That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

Lost on division May 3, 1990.

2. *Ms Bryden* - Resolution - That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.
3. *Mr Johnston* (Scarborough West) - Resolution - That, in the opinion of this House, the government occasionally, and from time to time, consider accepting the advice of the Commission on Election Finances under section 72 of the Legislative Assembly Act, concerning the indemnities and allowances afforded members of the assembly, unless it is concerned that the shock would be too great for members of the commission not to mention the members of the Assembly.

Withdrawn May 3, 1989.

4. *Mr Cooke* (Windsor-Riverside) - Resolution - That, in the opinion of this House, recognizing the inability of the Liberal government to ensure auto insurance protection for Ontarians or progressive reform of the workers' compensation system, and recognizing that numerous government studies have supported the concept of a universal sickness and accident system; the Government of Ontario should introduce legislation during its

current mandate to implement a universal sickness and accident insurance program; and further that this legislation should be based on the results of a widespread open public consultation held between now and the introduction of a bill.

Lost on division May 11, 1989.

5. *Mr Runciman* - Resolution - That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined.

Carried May 18, 1989.

6. *Mr Owen* - Resolution - That, in the opinion of this House, recognizing the unique nature of owned-home leased lot retirement communities, the Government of Ontario should undertake a review of these communities that would include: the apportionment of common amenities and services; tenure arrangements including leaseholds, life leases and condominiums; verification of maintenance and operating expenditures; contractual restrictions on the right of resale of units; the absence of fiduciary regulation; the registrability of leases and the role of rent regulation for these communities.

Carried May 11, 1989.

7. *Mr Laughren* - Resolution - That, in the opinion of this House, recognizing that Northern Ontario faces particular problems in the delivery of health care due in large part to the sparse population spread over great distances and the nature of the resource based economy, the Government of Ontario should immediately take special measures to provide needed health care to Northerners, including, but not limited to:

the creation of a medical school in the North providing training for a wide range of health professionals and with a focus on community and preventative care as a key way of dealing with the problems of recruitment and retention;

the provision of more community based care and more non-physician health care providers as a key way to deal with the problems of delivery of services;

more homecare and chronic care resources to meet the challenge of an aging population;

culturally appropriate delivery of services particularly for francophones and natives; and

improvements to the medically necessary travel grants.

Carried May 25, 1989.

8. *Mr Brandt* - Motion of Censure - That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the Environmental Protection Act to insure the public's safety from toxic chemicals, as well as his duty under the Freedom of Information and Protection of Privacy Act, 1987 to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario.
9. *Mr Matrundola* - Resolution - That, in the opinion of this House, recognizing the benefit of having the elderly, disabled and chronically ill remain in their own homes, the Government of Ontario should establish a framework to allow for the relatives of frail elderly, chronically ill and disabled persons to care for them at home, where mutually agreeable and medically possible, by compensating the caregiver at the same rate as qualified homemakers, and that the Government of Canada be urged to allow the caregiver to maintain Canada Pension Plan and Unemployment Insurance contributions.

Lost May 18, 1989.

10. *Mr Harris* - Resolution - That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians - many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates.

11. *Miss Martel* - Resolution - That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation - labour groups, injured workers and their advocates - are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario..

Lost on division June 15, 1989.

12. *Mr Cousens* - Resolution - That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive.

Carried June 22, 1989.

13. *Mr Johnson (Wellington)* - Resolution - That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in

Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program.

Lost on division June 29, 1989.

14. *Mrs Sullivan* - Resolution - That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments.

Carried June 22, 1989.

15. *Mr Black* - Resolution - That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Carried July 6, 1989.

16. *Mr Philip* (Etobicoke-Rexdale) - Resolution - That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

Carried July 6, 1989.

17. *Mr Wiseman* - Resolution - That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Carried July 13, 1989.

18. *Ms Collins* - Resolution - That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Carried July 13, 1989.

19. *Mr Cureatz* - Resolution - That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at

least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid-to late- 1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

Lost on division July 20, 1989.

20. *Mr Furlong* - Resolution - That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

Carried October 12, 1989.

21. *Mr Hampton* - Resolution - That in the opinion of this House, the Government of Canada should be condemned for its recent policies regarding native Education, and its failure to restore the funding of native Education to a level which will ensure that all native persons who want to enrol in a post secondary program of education will have the financial resources to do so; and calls upon the Government of Canada to open negotiations with First Nations representatives to establish a process which will provide adequate funding for Native post secondary education in the future.

Carried November 2, 1989.

22. *Mr Kormos* - Resolution - That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug* or *listed drug product*; further, that a *drug* or *listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario.

Carried on division July 20, 1989.

23. *Mr Eves* - Resolution - That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority.

24. *Mr Eves* - Resolution - That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy.

25. *Mr McCague* -- Resolution -- That, in the opinion of this House, recognizing that the *Municipal Elections Statute Law Amendment Act*, 1988 setting out new rules for municipal elections was introduced and passed hastily by the Liberal government less than a year before the 1988 municipal elections, and given that there have been numerous problems arising from the 1988 municipal elections; the Government of Ontario should immediately initiate a review of the Act, of the problems of administration of same, and should consider establishing some mechanism, such as a Municipal Election Finance Commission, which would ensure uniform application of the Act.

Lost on division November 16, 1989.

26. *Mr Eves* - Resolution - That, in the opinion of this House, recognizing the shortages of health manpower in certain health care sectors in this province, including nurses, physician specialists, technologists and technicians, and the shortages in all types of health professions in Northern Ontario, and recognizing that there is no effective means presently available to monitor the Province-wide supply of health professionals, and recognizing that government and all health care professions should work co-operatively to remedy these shortages and to identify the short-term and long-term needs for the supply of health manpower; the government of Ontario should support the establishment and funding of an independent Health Manpower Planning Institute with representatives of the health care professions, the Ministry of Colleges and Universities and the Ministry of Health to plan the future health manpower needs of the province.

Lost on division November 23, 1989.

27. *Mr Ray (Windsor-Walkerville)* - Resolution - That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:

1. variations in urban growth patterns in Ontario;
2. causes of this variation in urban growth patterns;
3. economic, financial, social and environmental consequences of such patterns;
4. short-range and long-range policy options available to the government and,
5. legislative, institutional and program changes required to implement on Ontario government policy on urban growth.

Carried October 26, 1989.

28. *Mr Cousens* - Resolution - That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis, the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham.

29. *Mr Villeneuve* - Resolution - That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:
1. not providing a higher budgetary and program priority to agriculture;
 2. not consulting with agricultural organizations prior to instituting major program changes;
 3. having a dismal record of co-operation and consultation with the federal government;
 4. providing no leadership within the government to promote alternate crop uses;
 5. cancelling interest rate relief as interest rates have risen;
 6. ignoring its own report concerning free trade;
 7. failing to recognize in a timely manner the importance and implication of the current GATT round;
 8. retreating from announced intentions to protect agricultural land; and
 9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities.

Lost on division October 26, 1989.

30. *Mr Reycraft* - Resolution - That in the opinion of this House, recognizing that the federal government's decision to close down the Canadian Forces Base in London, Ontario, will result in a significant loss of employment and dislocation of individuals and families in the community; and further recognizing that there is no significant cost-saving in closing down the base; therefore, the Government of Ontario should urge the Government of Canada to immediately reconsider its decision.

Carried November 9, 1989.

31. *Mr Dietsch* - Resolution - That in the opinion of this House, recognizing that credit card purchases are not permitted in winery stores; and that, purchasing by credit card is a socially accepted method of payment; and that, wine beverages can be purchased at hotels, restaurants and duty free stores using a credit card, the Government of Ontario should make changes to the appropriate provincial government policies in order to allow for the purchase of wine by credit card in wineries and wine store outlets.

Carried November 16, 1989.

32. *Mr Farnan* - Resolution - That in the opinion of this House, the Government of Canada should strike a distinctive Canadian Volunteer Korean Service Medal to be awarded to those Canadians who served in the Korean War - 25th of June, 1950 to 27th of July, 1953.

Carried November 23, 1989.

33. *Mr Pouliot* - Resolution - That in the opinion of this House, recognizing that health care is totally inadequate for Ontario's First Nations People, and recognizing that aboriginal people's requests for improvements are often not met because of jurisdictional disputes between the federal and provincial governments and further recognizing that Ontario's indigenous peoples want some control over the provision and delivery of their health care, the Government of Ontario should immediately take whatever measures necessary to ensure that:

the level of health care services to Ontario's First Nations is at the same level as other Ontarians;

the jurisdictional disputes between the federal and provincial levels of government are reduced and eventually eliminated; and

a process of giving control over the provision and delivery of health care services to the First Nations is developed and implemented.

Carried December 7, 1989.

34. *Mr Henderson* - Resolution - That in the opinion of this House, recognizing that the best interests of the child can be fulfilled by ensuring the child's access to love and emotional nurturance of each caring parent, and recognizing that a mother and a father are likelier to participate more fully in the growth and emotional development of their child through a nurturing parent-child relationship when child care and child nurturing responsibilities are shared with another caring adult, and recognizing that children benefit from a caring relationship with grandparents who bring a wealth of life experience to a nurturant relationship with a grandchild, and recognizing that society at large can benefit from the creative energies of mothers, fathers and children who are facilitated in their pursuit of vocational, academic recreational and social opportunities and who are freed from the painful and demoralizing personal struggles that occur when matters of child custody and access are determined through adversarial process. Every effort should be made to foster mediative rather than adversarial process to resolve disputes about custody and access, and every administrative effort should be made to bring together services designed to facilitate the cooperative mediation and resolution of custody and access disputes as a preferable alternative to adversarial court process, and efforts should be made, after family dissolution, to allow a child to have a frequent and continued nurturing and care-taking relationship with each parent unless the court determines that such a relationship with a particular parent will have a destructive influence on a particular child's healthy development and sense of well-being.

Lost December 7, 1989.

36. *Mr Pollock* - Resolution - That, in the opinion of this House, the Ministry of Health should pay for prosthetic hair replacements for persons under 18, or those enrolled as full time students in any school, college or University that have hair loss due to accidents, conditions such as Alopecia Areata, and treatments such as chemotherapy.

Carried December 14, 1989.

37. *Mr McGuigan* - Resolution - That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
- an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.

38. *Mr Harris* - Resolution - That, in the opinion of this House, recognizing that 32 tax hikes have been inflicted on the people of Ontario since 1985 because of government growth and spending increases; the Government of Ontario should immediately freeze current Public Service staffing levels, and present a balanced budget with no tax increases in the spring of 1990.

Lost on division March 22, 1990.

39. *Mr Harris* - Resolution - That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria -- specifically the Premier's Technology fund -- should be amended by the Government of Ontario to give priority to projects developing environmental technology.

40. *Mr Harris* - Resolution - That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights.

41. *Mrs Marland* - Resolution - That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes.

42. *Mr Mackenzie* - Resolution - That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The

owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs born by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels.

43. *Ms. Oddie Munro* - Resolution - That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the Occupational Health and Safety Act to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present.

Carried May 3, 1990.

44. *Mrs Smith* (London South) - Resolution - That, in the opinion of this House, since recent statistics continue to disclose that a sizeable portion of the women in our society are exposed to physical or sexual abuse, and that most studies would indicate that this behaviour pattern in men is often a result of childhood exposure to these same patterns of behaviour, the Government of Ontario, and in particular the Ministry of Education, should earmark specific funds to create programs (and material) delivered by respected male role models, to address and reverse these negative attitudes and that social programs provided for assisting male abusers be given consideration for inclusion in the funding programs of the Ministry of the Solicitor General and the Women's Directorate.

Carried March 29, 1990.

45. *Mr Rae* (York South) - Resolution - That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario.

46. *Mr Wildman* - Resolution - That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers economic success in the 1990's will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than

foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's Family Farm Protection Act to assist farmers facing foreclosures by enabling them to re-negotiate manageable credit terms.

Carried April 12, 1990.

47. *Mr Brandt* - Resolution - That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve.

Carried on division April 12, 1990.

48. *Mr Kozyra* - Resolution - That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province.

Carried April 19, 1990.

49. *Mr Carrothers* - Resolution - That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with

a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner.

Carried April 26, 1990.

50. *Mr Cooke (Windsor-Riverside)* - Resolution - That in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and, recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system.

51. *Mr Daigeler* - Resolution - That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on Safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime.

Carried June 7, 1990.

52. *Mr Miclash* - Resolution - That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual

requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs.

Carried May 31, 1990.

53. *Mr Morin-Strom* - Resolution - That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal.

Lost on division June 7, 1990.

54. *Ms Poole* - Resolution - That in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms.

55. *Mrs O'Neill* (Ottawa-Rideau) - Resolution - That in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens..

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 70(a)

1. *Mr Brandt* - Notice - That the Government lacks the confidence of the House because of the failure of the Premier to establish and enforce ethical standards of conduct for members of his government, including Ministers of the Crown and senior appointed officials, because of the questionable relationship among members of the government, the Liberal Party of Ontario, political appointees and financial supporters, because of the allegations of favouritism in the awarding of contracts to friends of government, and because of the Premier's failure to assume full responsibility for the actions of those whom he has appointed.

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

1. *Mrs Grier* - Notice - That this House deplores the government's failure to safeguard and improve the quality of the Ontario environment in general; and that in particular, this House deplores the government's failure to use powers available to it under existing legislation to prevent the recent massive dangerous and toxic fire at Tyre King Tyre Recycling Limited near Hagersville, powers which would have protected the health of people and the environment in the Hagersville area, and more generally in southwestern Ontario; and the Minister failed to pursue fully the remedial measures outlined in his Order to Tyre King Tyre Recycling Ltd. of January 22, 1987; and for all these reasons, the House no longer has confidence in this government.

Lost on division March 21, 1990.

2. *Mr Laughren* - Notice - That this House condemns the Government of Ontario for its failure to recognize:
 - that Northern Ontario has been a source of enormous wealth for the private sector;
 - that Northern Ontario has been a source of enormous revenues for the provincial government;
 - that the provincial government puts very little revenue back into the north;

- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House.

Lost on division June 26, 1990.

3. *Mr Harris* - Notice - That, in spite of 33 tax increases, increasing annual provincial tax revenues by over 130% in five years, and in spite of increasing total government spending over that same period from 25 billion dollars to over 44 billion dollars this government has failed to implement several of its significant election promises, specifically the creation of 4,000 new hospital beds, the creation of 102,000 affordable rental units, provide automobile drivers with lower insurance rates and, establish an environmental superfund to clean up toxic waste sites, therefore this House has lost confidence in the government of Ontario, not only for its inability to maintain its promises, but for its inability to develop a plan to halt the deterioration of our health care system, transportation network, competitive tax position, and integrity of our government institutions.

SPECIAL DEBATES

OPPOSITION DAYS

1. *Mr Cooke (Windsor-Riverside)* - Opposition Day - That this House condemns the government for its mismanagement of its responsibility for automobile insurance - specifically, its failure to make automobile insurance more affordable, more accessible and fairer and its failure to institute a system of driver-owned insurance for the people of Ontario. Minister of Financial Institutions.

Lost on division October 17, 1989.

2. *Mr Eves* - Opposition Day - That this House condemns the government for its failure to address the deterioration of our health care system - specifically its underfunding of hospital operating budgets resulting in the closing of hospital beds; its failure to keep its commitment to fund 4,400 new chronic and acute care hospital beds; its insensitivity to the increased waiting lists for health services forcing Ontarians to seek health care outside the province and resulting in the suffering of patients; its inability to foster a cooperative relationship and trust with health care providers; its inadequate support and funding for a more community-based approach to health care delivery; and, its attempts to blame individual doctors and health care professionals for the problems in the health care system. Minister of Health.

Lost on division November 1, 1989.

3. *Mrs Marland* - Opposition Day - That given the need to preserve greenspace in the Greater Toronto Area, given the unique character of the Rouge Valley, given the financial commitment of the federal government in support of the Save the Rouge efforts, given the threat to the Rouge of the province's plans for highway construction, and given that approximately 90% of the Rouge Valley lands are presently owned by the provincial government, this House is of the view that the provincial government should immediately take all appropriate steps to designate the Rouge Valley as a provincial park. Minister of the Environment.

Carried November 20, 1989.

4. *Mr Laughren* - Opposition Day - This House resolves that given the regressive nature of the Federal Goods and Services Tax, this Liberal government will, under no circumstances participate in a joint Federal-Provincial sales tax on goods and services. Treasurer of Ontario and Minister of Economics.

Lost on division November 21, 1989.

5. *Mrs Grier* - Opposition Day - Recognizing that Ontario faces a serious crisis in disposing of garbage; and that the government has stated that its goal is to divert 25% of municipal solid waste from landfills by 1992 and 50% by 2000; and that the government has so far failed to establish policies which would enable these targets to be met; and that by regulating the control of ozone-depleting substances Ontario has shown a willingness to act in advance of federal initiatives; the Government of Ontario should:

- (i) adopt waste reduction at source as the overriding firstpriority of the "3 Rs" garbage strategy (first reduce, then re-use, lastly recycle);
- (ii) establish a Waste Reduction Office with a statutory mandate to achieve a 50% reduction of solid waste within the next decade;
- (iii) legislate mandatory waste reduction programs for municipalities;
- (iv) legislate mandatory source separation for all waste generators and for all types of waste for which reduction, re-use and recycling opportunities exist;
- (v) pass regulations to prevent the disposal of materials and products for which waste reduction alternatives exist;
- (vi) phase out containers and packaging products that cannot be diverted from the waste stream;
- (vii) establish warranty conditions to extend product life;
- (viii) use financial incentives and disincentives such as a graduated waste management surcharge system to favour reduction and re-use of products.

- (ix) introduce the needed legislation and establish the required policies at the opening of the March 1990 session of the Legislature, without waiting for a report on new federal packaging legislation expected later in 1990. Minister of the Environment.

Carried on division December 7, 1989.

6. Mr Brandt - Opposition Day - That, in the opinion of this House, while re-affirming its support for the provision of French language services where numbers warrant, while confirming that the *French Language Services Act, 1986* was not intended to apply to municipalities, recognizes the elevated tensions and misunderstandings which have developed over language issues throughout this Province, and therefore calls upon the Government of Ontario to establish, as soon as possible, an all-Party Committee of the Legislature to travel across the Province to receive public input on the administrative guidelines, regulations, and implementation of the *French Language Services Act, 1986* (Bill 8).

Lost on division April 2, 1990.

- M. Brandt - jour réservé à l'opposition - Que, de l'avis de cette Chambre, l'Assemblée législative réaffirme son appui à la prestation des services en français là où le nombre le justifie et confirme que la *Loi de 1986 sur les services en français* ne vise pas les municipalités. Elle reconnaît, par contre, que la question de la langue est à la source de graves tensions et malentendus dans notre province. Par conséquent, l'Assemblée législative demande au gouvernement de l'Ontario de former dans les plus brefs délais un comité mixte de l'Assemblée législative pour sonder l'opinion publique à l'échelle de la province au sujet des directives administratives, des règlements et de l'application de la *Loi de 1986 sur les services en français* (projet de loi 8).

La mise aux voix est rejetée le 2 avril 1990.

7. *Mr Cooke (Windsor-Riverside)* - Opposition Day - That, as a result of the Residential Rent Regulation Act favouring landlords over tenants, the Act's financial loss provisions intentionally rewarding speculative purchases, the Act's capital expenditures provisions intentionally rewarding landlords for undertaking unnecessary renovations thus causing devastating results on the financial security of tenant families in this province, this House calls upon the government to replace the Residential Rent Regulation Act with real rent controls that will allow only one guideline based rent increase per year with no exemptions.

Lost on division May 2, 1990.

8. *Mr Rae (York South)* - Opposition Day - That, in the opinion of this House, the Legislative Assembly of Ontario recognizes and affirms that:

- this House supports the French Language Services Act;
- in the context of our shared belief that linguistic duality is a fundamental characteristic of our country, takes pride in the fact that access for the French-speaking minority in Ontario to the courts, education, public broadcasting, proceedings of the Legislature and provincial services in designated areas has been a shared commitment of different political parties and governments over many years;
- the French Language Services Act applies only to the provision of provincial government services to members of the public, and can be achieved without diminishing services for the English-speaking majority;
- the decision of a municipality to provide municipal services in both English and French is entirely voluntary, and
- through public hearings after the spring session, the Select Committee on the Constitution should in its work seek the views of Ontarians and others on matters relating to the relationship between English-speaking and French-speaking Canadians in Ontario, including services and education.

Carried on division May 15, 1990.

- M. Rae (York South)* - jour réservé à l'opposition - Que, de l'avis de cette Chambre, l'Assemblée législative reconnaît et affirme que:

- elle appuie la Loi sur les services en français;
- témoignant de notre conviction commune à l'effet que la

dualité linguistique constitue une caractéristique fondamentale de notre pays, se félicite de ce que la minorité francophone ait accès à des services en français devant les tribunaux, dans les écoles, au niveau de la radiodiffusion publique, au sein de l'Assemblée législative et à d'autres services provinciaux dans les régions désignées ce qui a traduit l'engagement des trois partis politiques et des différents gouvernements au cours des ans;

- la Loi sur les services en français ne s'applique qu'aux services offerts par le gouvernement au public et ne diminue en rien les services offerts à la majorité anglophone;
- qu'aucune municipalité n'est tenue de fournir des services municipaux en anglais et en français à moins d'une décision prise par ladite municipalité et;
- lors de ses audiences publiques qu'il tiendra après la session parlementaire du printemps, le Comité spécial sur la Constitution devrait inviter les Ontariennes et les Ontariens ainsi que les autres intéressés à venir exprimer leurs opinions sur les questions touchant les relations entre anglophones et francophones en Ontario, y compris dans le domaine des services et de l'éducation.

La mise aux voix est agréée le 15 mai 1990.

9. *Mr Reville - Opposition Day - As Canada becomes a signatory of the United Nations Convention on the Rights of the Child - a reaffirmation that children's rights require special protection and a recognition that children require an atmosphere of happiness, love and understanding - tens of thousands of Ontario's children are beset by sexual and physical abuse, drugs, hunger, homelessness and despair, therefore we call on this government to live up to the obligations set out in the Convention on the Rights of the Child by putting in place the policies, programs and legislation necessary to ensure that children become our most precious resource in fact as well as in our societal mythology.*
